1. Qualitative Information Regarding Settlement of Accounts for the Nine Months Ended December 31, 2021

(1) Explanation on Operating Results

Effective from the beginning of the first quarter ended June 30, 2021, the Group has adopted the Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020) and others. Therefore, an explanation on operating results for net sales for the nine months ended December 31, 2021 does not include year-on-year percentage changes (%).

- (1) Financial Position and Status of Operating Results
- (a) Status of Operating Results

During the nine months ended December 31, 2021, the global economy turned to a moderate recovery trend thanks to the resumption of economic activities in accordance with a rise in COVID-19 vaccination rates, and the implementation of economic measures in various countries. On the other hand, the economic outlook remained uncertain due to the resurgence of another COVID-19 variant and the confusion in the global supply chain stemming from a worldwide shortage of semiconductors and delays in maritime transportation, among other reasons.

In Japan, economic activities were restarted and economic stimulus measures were implemented in response to the progress of COVID-19 vaccination and the lifting of the state of emergency at the end of September. As a result, household consumption showed signs of recovery and corporate performance improved. However, due to the current resurgence of a COVID-19 variant, there are concerns that the economy that led to some recovery may turn sluggish.

Under these circumstances, the Group strived to expand its global share and boosted the restructuring of its business portfolio in line with its long-term management vision, GIFT+1 2024.

As a result, net sales for the nine months ended December 31, 2021 were 410,343 million yen. In terms of operating profit and loss, gross profit increased on a year-on-year basis, boosted by a recovery from the previous fiscal year when the COVID-19 pandemic affected both domestic and overseas bases. Operating profit was 5,995 million yen (compared with an operating loss of 10,168 million yen in the same period of the previous fiscal year), ordinary profit was 6,379 million yen (an ordinary loss of 12,646 million yen in the same period of the previous fiscal year), and profit attributable to owners of parent was 5,415 million yen (a loss attributable to owners of parent of 10,485 million yen in the same period of the previous fiscal year).

Results for the nine months ended December 31, 2021 by segment are as follows.

<Wholesale pulp and paper, domestic locations>

During the nine months ended December 31, 2021, after the state of emergency and priority measures were lifted across the country, there were signs of recovery in personal consumption which had been stagnant, and there was a certain degree of recovery in demand for paper, mainly graphic paper such as catalogues and flyers. However, the effect was limited.

Demand for paperboard for paper containers recovered slightly as the flow of people increased following the lifting of the state of emergency. Net sales for containerboard base paper increased from the previous fiscal year. This was due to the continuously strong demand for beverage packing materials, and an increase in exports to overseas, China in particular.

Sales volume remained almost unchanged as waste paper production decreased amid low domestic paper consumption.

As a result, net sales were 191,311 million yen, and operating profit was 3,881 million yen (144.5% year-on-year) for the nine months ended December 31, 2021.

<Wholesale pulp and paper, overseas locations>

Both net sales and profits of the sector largely exceeded the previous fiscal year boosted by the success of the regional strategy, and the restructuring of the Group's business portfolio and profit structure, which drove its overall performance.

In Europe, despite local lockdowns imposed in some cities early in the first half, earnings of Antalis S.A.S., which we acquired in July 2020, improved substantially. This was due to efforts to improve profitability by reducing interest expenses associated with reduced debts, and streamline management, including business restructuring. There was also a healthy packaging business and a recovery of the visual communication market.

The economy of Oceania, especially Australia, was affected by the lockdowns imposed in major cities due to concerns about the spread of the Delta variant of COVID-19. However, Spicers Limited, which we acquired in 2019, expanded the scope of the mainstay packaging business and the sign and display business by way of M&A, and took advantages of its stock business in the paper business. As a result, earnings of Spicers Limited were enhanced rapidly.

In China, the earnings of KEISHIN PAPERS TRADE were weighed down by the paper and paperboard market that slumped after the third quarter due to the government's zero-COVID policy and a container shortage. However, they are on a recovery trend, helped by improved sales sites and the system established by its stock business.

In addition, KPP ASIA-PACIFIC PTE. LTD., which is in charge of the ASEAN region, has completed a corporate reorganization within the KPP Group, and is expanding earnings by capturing demand in the regions where the spread of COVID-19 has peaked out.

As a result, net sales were 21,815 million yen, and operating profit was 4,156 million yen (compared with an operating loss of 11,456 million yen in the same period of the previous fiscal year) for the nine months ended December 31, 2021.

<Real estate leasing>

Despite the continuous full operation of the KPP Yaesu Building, which is our main property, the Group's net sales decreased slightly due mainly to the reduced rent income arising from the redevelopment of owned buildings. In terms of profit, operating profit decreased due to land rent arising from the sale of land for the KPP Yaesu Building in February 2021.

As a result, net sales were 926 million yen (99.0% year-on-year), and operating profit was 136 million yen (26.6% year-on-year) for the nine months ended December 31, 2021.

(2) Explanation on Financial Position

Total assets at the end of the third quarter ended December 31, 2021 were 296,446 million yen, up 21,326 million yen from the end of the previous fiscal year. This was mainly due to an increase in trade receivables and inventory assets.

Liabilities were 245,319 million yen, up 13,781 million yen from the end of the previous fiscal year. This was due mainly to an increase in trade payables and commercial papers.

Net assets came to 51,126 million yen, up 7,544 million yen from the end of the previous fiscal year. This was due mainly to an increase in profit attributable to owners of parent and remeasurements of defined benefit plans. As a result of the above, the equity ratio was 17.2%, up 1.4 points from the end of the previous fiscal year.

(3) Explanation of consolidated financial results forecast and other forward-looking information Taking into consideration the recent business trends, the Company has revised its consolidated financial forecasts for the fiscal year ending March 2022, which were announced on August 11, 2021. For details, please refer to "Notice of Revision of Consolidated Financial Results Forecast and Dividend Forecast for the Fiscal Year Ending March 2022" announced today (February 14, 2022).

Creditors of Universal Pulp and Paper (Shandong) Co., Ltd., a subsidiary of Mission Sky Group Limited, the Company's equity-method affiliate, filed for bankruptcy due to a cash crunch, and it was accepted by the district court. This includes share of loss of entities accounted for using equity method of 2,463 million yen.

Nine months ended December 31, 2021 (from April 1, 2021 to December 31, 2021) Not applicable.

(Notes on significant changes in the amount of shareholders' equity)

(Cancellation and disposal of treasury shares)

The Company resolved to cancel treasury shares at the meeting of Board of Directors held on September 22, 2021 in accordance with Article 178 of the Companies Act, and repurchased 1,832,998 shares of treasury stock for cancellation on October 1, 2021.

In addition, the Company disposed of 34,182 shares of treasury stock (disposal book value: 13 million yen) through the issuance of remuneration BIP trust for corporate officers. As a result, capital surplus decreased by 540 million yen and treasury shares decreased by 553 million yen for the nine months ended December 31, 2021.

(Changes in accounting policies)

(Application of Accounting Standard for Revenue Recognition, etc.)

The Group has adopted the Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020; hereinafter referred to as "Revenue Recognition Accounting Standard") and others effective from the beginning of the first quarter ended June 30, 2021. Accordingly, revenue is recognized at the time of the transfer of control for promised goods or services to customers in the amount expected to be received in exchange for such goods or services. Major changes due to the adoption of the Revenue Recognition Accounting Standard and others are as follows.

- Revenue recognition regarding transactions acted as agent

In the wholesale pulp and paper business, the entire amount of consideration received from customers was previously recognized as revenue. The method has been changed to recognize revenue by the net amount, which is the entire amount less the amount paid to the supplier, for transactions performed as agent to provide goods or services, after the role (whether as entity itself or as agent) in the provision of goods or services to customers has been assessed.

- Variable consideration (sales rebate, transaction by provisional price)

Portion of the revised amount for sales rebates or transactions by provisional price previously have been treated as cost of sales. The method has been changed to estimate the amount of variable portion of consideration for transactions when providing goods or services to customers, and to include such amount in the transaction price.

In adopting the Revenue Recognition Accounting Standard and others, in accordance with the transitional treatment set forth in the proviso of Paragraph 84 of the Revenue Recognition Accounting Standard, the cumulative impact of retrospective application of the new accounting policies prior to the beginning of the first quarter ended June 30, 2021 was added to or subtracted from retained earnings at the beginning of the first quarter ended June 30, 2021. The new accounting policy has been applied from the beginning balance of the first quarter ended June 30, 2021.

As a result, net sales and cost of sales decreased by 11,888 million yen, respectively, for the nine months ended December 31, 2021. There are no impacts on the retained earnings of the beginning balance of the first quarter of the fiscal year under review.

In accordance with the transitional treatment prescribed in Paragraph 28-15 of the Accounting Standard for Quarterly Financial Reporting (ASBJ Statement No. 12, March 31, 2020), the Company did not provide information of disaggregated revenues from contracts with customers for the nine months ended December 31, 2020.

(Application of Accounting Standard for Fair Value Measurement, etc.)

The Group has adopted the Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30, July 4, 2019) and others effective from the beginning of the first quarter ended June 30, 2021. In accordance with

the transitional treatment set forth in Paragraph 19 of the Fair Value Measurement Accounting Standard and Paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019), the new accounting policy set forth by the Fair Value Measurement Accounting Standard and others will be applied in the future. There are no impacts on the Quarterly Consolidated Financial Statements.

(Additional Information) (Impact of COVID-19)

There are no significant changes on the impact of COVID-19 described in the securities report (significant accounting estimates) for the previous fiscal year.
